Out-of-School-Time Programs This Summer

Paving the Way for Children to Find Passion, Purpose & Voice
Parent, Teacher & OST Provider Perceptions
APRIL 27, 2021

Supported By Wallace
Research Purpose

Understand how Parents, Teachers, and OST Providers perceive the value of OST in social, emotional, and academic development, to help inform communications, programs, and policy

Understanding Expectations
What role do Parents, Teachers, and OST Providers see OST programs playing in social, emotional, and academic development compared with school and home? What are the connections across settings? What should they be?

Defining Success
How do Parents say they choose an OST program? How do they define or assess quality? What does a successful program look like?

Unpacking COVID-19 Impact
How do Parents, Teachers, and OST Providers feel COVID-19 has impacted the role of OST now and going forward, specifically for summer 2021?
Methodology

**Conducted November-December 2020**

**Qualitative**

- **3 K-8 Parent Focus Groups** – mixed race, Black parents, Hispanic parents in Spanish
- **3 Parent-Child Dyads** – children in grades 4-6
- **2 K-8 Teacher Focus Groups** – teachers with and without OST program experience
- **6 OST Provider in-depth interviews** – representing public schools, youth development organizations, and opportunity-centered providers
- **Virtual sessions** via a screen-sharing platform

**Conducted February 9th-March 9th, 2021**

**Quantitative**

- **Large scale national survey** (n=3,031) recruited through an online non-probability sample with quotas set to ensure demographically representative audiences, followed AAPOR best practices
- **Parents and guardians** of K-8 children in public/public charter schools, with oversamples of Black and Hispanic families (survey offered in English and Spanish), n=2,020
- **Professionals** working with K-8 children as teachers in public/public charter schools (n=631) and OST providers (n=380)

**Key=**

- Parents
- Teachers
- OST Providers

**Significant subgroup differences are noted throughout**

Blue/red numbers = statistically higher/lower
Parents, Teachers & OST Providers see OST programs as providing a child-centered experience with a differentiated and highly valuable offering.

Yet, Parent responses suggest that participation in high-quality OST opportunities is not equitably distributed.

Summer 2021 offers a unique opportunity for Parents, Teachers & OST Providers to partner in supporting Parents’ top priority for their child: their social and emotional health.

**Takeaway:** Districts are critical players in ensuring equitable access to high-quality OST programs. This is more important than ever, as they budget for new stimulus dollars and plan for this summer and the next school year.
OST Plays a Role for Two-thirds of Families Surveyed

65% of Parents have children in an OST program
Average 2 programs each

OST Definition: Programs that your child/children might participate in outside of school hours and/or the regular classroom schedule. These are programs that have a learning or skills component, with organized activities and/or learning opportunities, in addition to providing childcare, and may be offered before or after school or on weekends, online, or in person.
OST Parents Report a Higher Socioeconomic Status Regardless of Race or Ethnicity

OST Families Have Higher Incomes

OST’s Unique Offering | A Child-Centered Experience

Quality Drivers for Parents

- Environment: 44%
- Child-centric Interests/Skills: 37%
- Staff: 6%
- Academics: 6%
- Communication: 6%
- Logistics: 1%

**Child-centric Interests/Skills: most important**

- #1: Your child seems happy: 83%
- Your child is gaining confidence: 79%
- Your child is developing SEL skills: 77%
- Your child is exposed to new experiences: 75%
- Your child is pursuing interests/passions: 73%

**Environment: most important**

- Program is fun: 76%
- Physical safety of environment: 73%
- Nurturing/welcoming environment: 72%

Parents rated 35 items in 6 categories on how important each was in determining the quality of their child’s primary afterschool program. As a follow-up, Edge conducted a regression analysis, to determine how much each category impacts perceptions of quality.
Distinct Yet Reinforcing Roles

Based on Parent survey responses

Home
- Respect,
- Kindness, Patience,
- Learning from mistakes,
- Self-control, Empathy,
- Compassion

OST
- Teamwork,
- Confidence,
- Perseverance

School
- Basic reading,
- Writing, math, etc.,
- Problem-solving,
- Critical thinking,
- Focus

Home + School
- Communication,
- Listening,
- Being organized

OST + Home
- Self-esteem,
- Independence

School + OST
- Social skills,
- Creativity

Home + School + OST
- All 3
- Responsible decision-making,
- Self-motivation

Subgroup Data
Important for OST to Develop:
- *Leadership more important to 6-8 vs. K-5 Parents
- Communication skills are also in the top-tier for Black and Hispanic Parents
COVID Backdrop: A Year Like No Other

Parent and Student Perspective

- “Hard,” “messy,” “challenging”
- Parents are feeling whiplash with instructional mode and school, and seeing academic gaps firsthand
- Many feel their children are “regressing” academically, socially, and emotionally

“My kid used to be a superstar. Now with this homeschooling … he cannot catch up; he doesn’t want to do anything. He acts like he doesn’t know anything.” (Black Parent)

Teacher/OST Provider Perspective

- Exhaustion, frustration, resilience
- More than any other year, parent engagement is crucial to the student experience
- Some parents rose to the occasion, but need was overwhelming and evolving
- Worried about learning loss, chronic absenteeism, social-emotional health

“It’s hard. We are open during the school day, getting kids connected online, coordinating. We are trying to connect with teachers and maintain a sense of normalcy.” (OST Provider)

OST Parents Say They Are More Confident About Fall than Non-OST Parents

Confident about children being prepared for Fall 2021:
67% Parents in OST, 47% Parents Not in OST

- Extremely confident
- Very confident
- Somewhat confident
- Not too confident
- Not confident at all
- Not sure

Subgroup Distinctions
- High-quality OST correlates with confidence among Parents, Teachers & OST Providers alike. Those who rate their program as “excellent” are more likely to be extremely confident (Parents 52%, Teachers 47%, OST Providers 43%)
- Dosage also impacts confidence – those whose children attend programs 5 or more days a week are most confident (46%)

“I’ve noticed that kids with out-of-school activities are the ones who get their work done, because they’ve figured out a strategy to keep it in check. If they have something they are successful at, their level of confidence as a person impacts how they approach learning in a classroom.” (Teacher)

- Not confident at all
- Not sure

Parents

Teachers
She should continue to read but for her own leisure and enjoyment, to keep her mind engaged with stories that aren’t in front of screens.... I feel like my kid just needs to be a kid. This last year has been such a mess that, if it’s safe to do so, I want her to just hang out with her friends and have fun and be silly. (Hispanic Parent, Middle Income)

They need to work on socialization that may have been compromised during this pandemic. They also need to do a little practice each day on reading and math to keep and hone those skills. (Teacher, <50% BIPOC or FRP)

Stay connected to people throughout the summer. Try to do activities that will continue learning but are fun. (OST Provider, 50%+ BIPOC)
## Top Priorities for Students this Summer

<table>
<thead>
<tr>
<th>Topic</th>
<th>Parents</th>
<th>Teachers</th>
<th>OST Providers</th>
</tr>
</thead>
<tbody>
<tr>
<td>Addressing their social, emotional, mental health needs</td>
<td>55%</td>
<td>54%</td>
